

The RAIDIX logo consists of the word "RAIDIX" in a bold, white, sans-serif font, followed by a stylized icon of three horizontal lines with arrowheads pointing to the right. The logo is set against a red rectangular background.

# SOFTWARE-DEFINED STORAGE FOR DEMANDING APPLICATIONS AND SERVICES

RAIDIX 4.X software ensures the highest throughput for intensive streaming workloads. Proprietary RAID engine provides stable performance and downtime reduction in case of drive failure.

*Compatible with wide range of hardware from world-famous vendors*

**Western Digital**

The Lenovo logo, featuring the word "Lenovo" in white, sans-serif font on a red rectangular background.

More **2500** installations around the globe since 2009!

## EMPOWER YOUR STORAGE WITH RAIDIX SOFTWARE

- Up to 17GBps write and 22GBps read on RAID 6
- Performance penalty in degraded mode less than 10%
- Dual-Active Controller Architecture
- High level of fault-tolerance by RAID 7.3 / RAID N+M
- Intellectual workloads optimization by QoSmic
- Disaster recovery by means of Remote Replication
- Effective multi-threads mode processing
- File (NFS, SMB, AFP, FTP) and block (FC, IB, iSCSI, SAS) protocols

## APPLICATIONS AND WORKLOADS

- Media & Entertainment
- Video Surveillance
- High Performance Computing
- Backup Infrastructure

RAIDIX is a software developing company specializing in storage solutions for data intensive workloads. Technology innovations including proprietary RAID engine and unique algorithms of parallel calculations create core value of company's products that root in deep mathematical research and scientific intelligence of in-house lab. RAIDIX data storage solutions are tailored for needs of Media & Entertainment, Video Surveillance, HPC, Technical Computing and other data-rich industries.
